Homepage

As per the problem statement

"WORLD CUP STATS 1930-2014"
It has a bar graph titled "Goals scored by Countries in World Cup," showing Brazil, France, Germany, and Italy's goal counts on the top left. Below this graph, there's a table showing the results of the World Cups from 1930 and 1934 with information on the winner and runners-up. In the center, there's a world map indicating where each World Cup was held from 1930 to 2014. To its right are statistics on attendance numbers for specific years and countries. Below the map is a bar graph comparing away team goals vs home team goals by year. On the far right is a circular graph displaying goals scored by year and country with different colors representing different countries. The image also contains some OCR text which is a list of countries and their goals scored by year, attendance numbers for specific years and countries, and a table showing the results of the World Cups from 1930 to 2014 with information on the winner and runners-up.
